

Scenario Caravanserai 3

Road To Harem

Background

1184: Aisha, third daughter of the Syrian Amir of Sheizar Kukburi, has been promised to Saladin to become his fifth wife, a great honor for this declining family. The Amir knows the many dangers of the journey and is personally escorting Aisha with a strong armed force. Unfortunately the oasis, where the group is supposed to stop for the night, has already been occupied by a Frankish party led by Sir Raymond. His spies told him about the numerous gifts and treasures that the Amir is carrying. Raymond is determined to get his fair share of the wedding.

Map Layout And Starting Positions

- > Syrians enter through the left-hand side of the Open Field map.
- > Franks are installed anywhere on the Watering Hole map.

Note: To play this scenario with Vassal, you can replace the Open Field map with the Desert map, its hill facing left.
